
A. Reader-input layer 13 × earlier-head-input layer 12
Mean composition score
Matrix relative distance D
Same token: H⁺
Different token: H⁺
Same token: full C
Different token: full C
B. Same token across layers and distinct contexts: H⁺
Mean composition score
Matrix relative distance D
Same token, layers 13 / 13
Same token, layers 13 / 7
Same token, layers 13 / 0
Different token, layers 13 / 0
C. Average 16 layers within each context, then compare: H⁺
Mean composition score
Matrix relative distance D
